DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claim(s) 62-73, 75-82 and 108-110. Classified in Class 345/419, 653 and 679 "3-D manipulation". Class 345/848, 852 "Navigation within structure; Hierarchy or network structure".

- 
- The seal of the United States Department of Commerce is centered on the page. It features an eagle with wings spread, perched atop a shield. The shield contains a sailing ship on the water, with rays of light emanating from the bottom. The words "DEPARTMENT OF COMMERCE" are arched above the eagle, and "UNITED STATES OF AMERICA" is arched below the shield. Two stars are positioned on either side of the shield.
- a) drawn to representing three-dimensional object.
 - b) displaying 3-D image.
 - c) multiple points of view being a discrete representation of the object.
 - d) Simulate three-dimensional.

II. Claim(s) 83-107 and 116-125. Classified in Class 705/26, 27, 28 "Presentation of image or description of sales item".

- a) selling goods over a remote information server.
- b) displaying product for sale over the Internet.

Art Unit: 2173

II. The inventions are distinct, each from the other because of the following reasons:

Invention I drawn to representing three-dimensional information Claim(s) (62-73, 75-82 and 108-110); and Invention II displaying product for sale over the Internet (Claim(s) 83-107 and 116-125); are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation.

II. ★ Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognize divergent subject matter, restriction for examination purposes as indicated is proper. ★

III. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h)
